## TECHNOLOGIES

**"Your Vision Our Tech"**

**"EARN FROM SUN, TONS OF SAVING  
EVERY MONTH FROM SOLAR PV SYTEM"**

## ABOUT US

Established in 2018, Resonant Technologies. operates as an expert engineering, procurement, and project management contractor(EPCM) in the field of solar energy and energy storage. This company caters specifically to the Commercial and Industrial (C&I) property sector by offering customized energy solutions for solar and storage systems, with capacities ranging from 3 kW to 100 kW

Our tailored solutions comprise cutting-edge products and engineering approaches, all while integrating our core principles rooted in value. This ensures the longevity of your system and aligns it with your anticipated outcomes.

Today, Resonant Technologies has grown to be a vertically integrated be spoke energy company offering specialized project development, EPC and O&M services, with a clear goal to alleviate energy in Maharashtra and will soon in all over India.

## OUR VISION

We are committed to delivering exceptional turnkey solar solutions that empower businesses, communities, and individuals to harness the sun's power for a sustainable future.

## OUR MISSION

Our mission is to contribute to a greener future by reducing carbon emissions and mitigating climate change through the widespread adoption of solar energy. We actively seek opportunities to minimize our environmental footprint and promote sustainability.

## OUR SALES AND SERVICES

Resonant Technologies assists energy consumers throughout the lifecycle of a solar power plant. Starting with the feasibility and design to operations and maintenance, walking you through every step of the project process. Our clientele includes Commercial & Industrial Power Consumers.

### WE OFFER IN-HOUSE END-TO-END SERVICES

#### **Solar Engineering, Procurement and Project Management (EPCM)**

Resonant technologies has an in-house end-to-end capability to build a customized solar-powered plant. Our team are seasoned experts with experience in successfully handling projects involving every type of scenario.

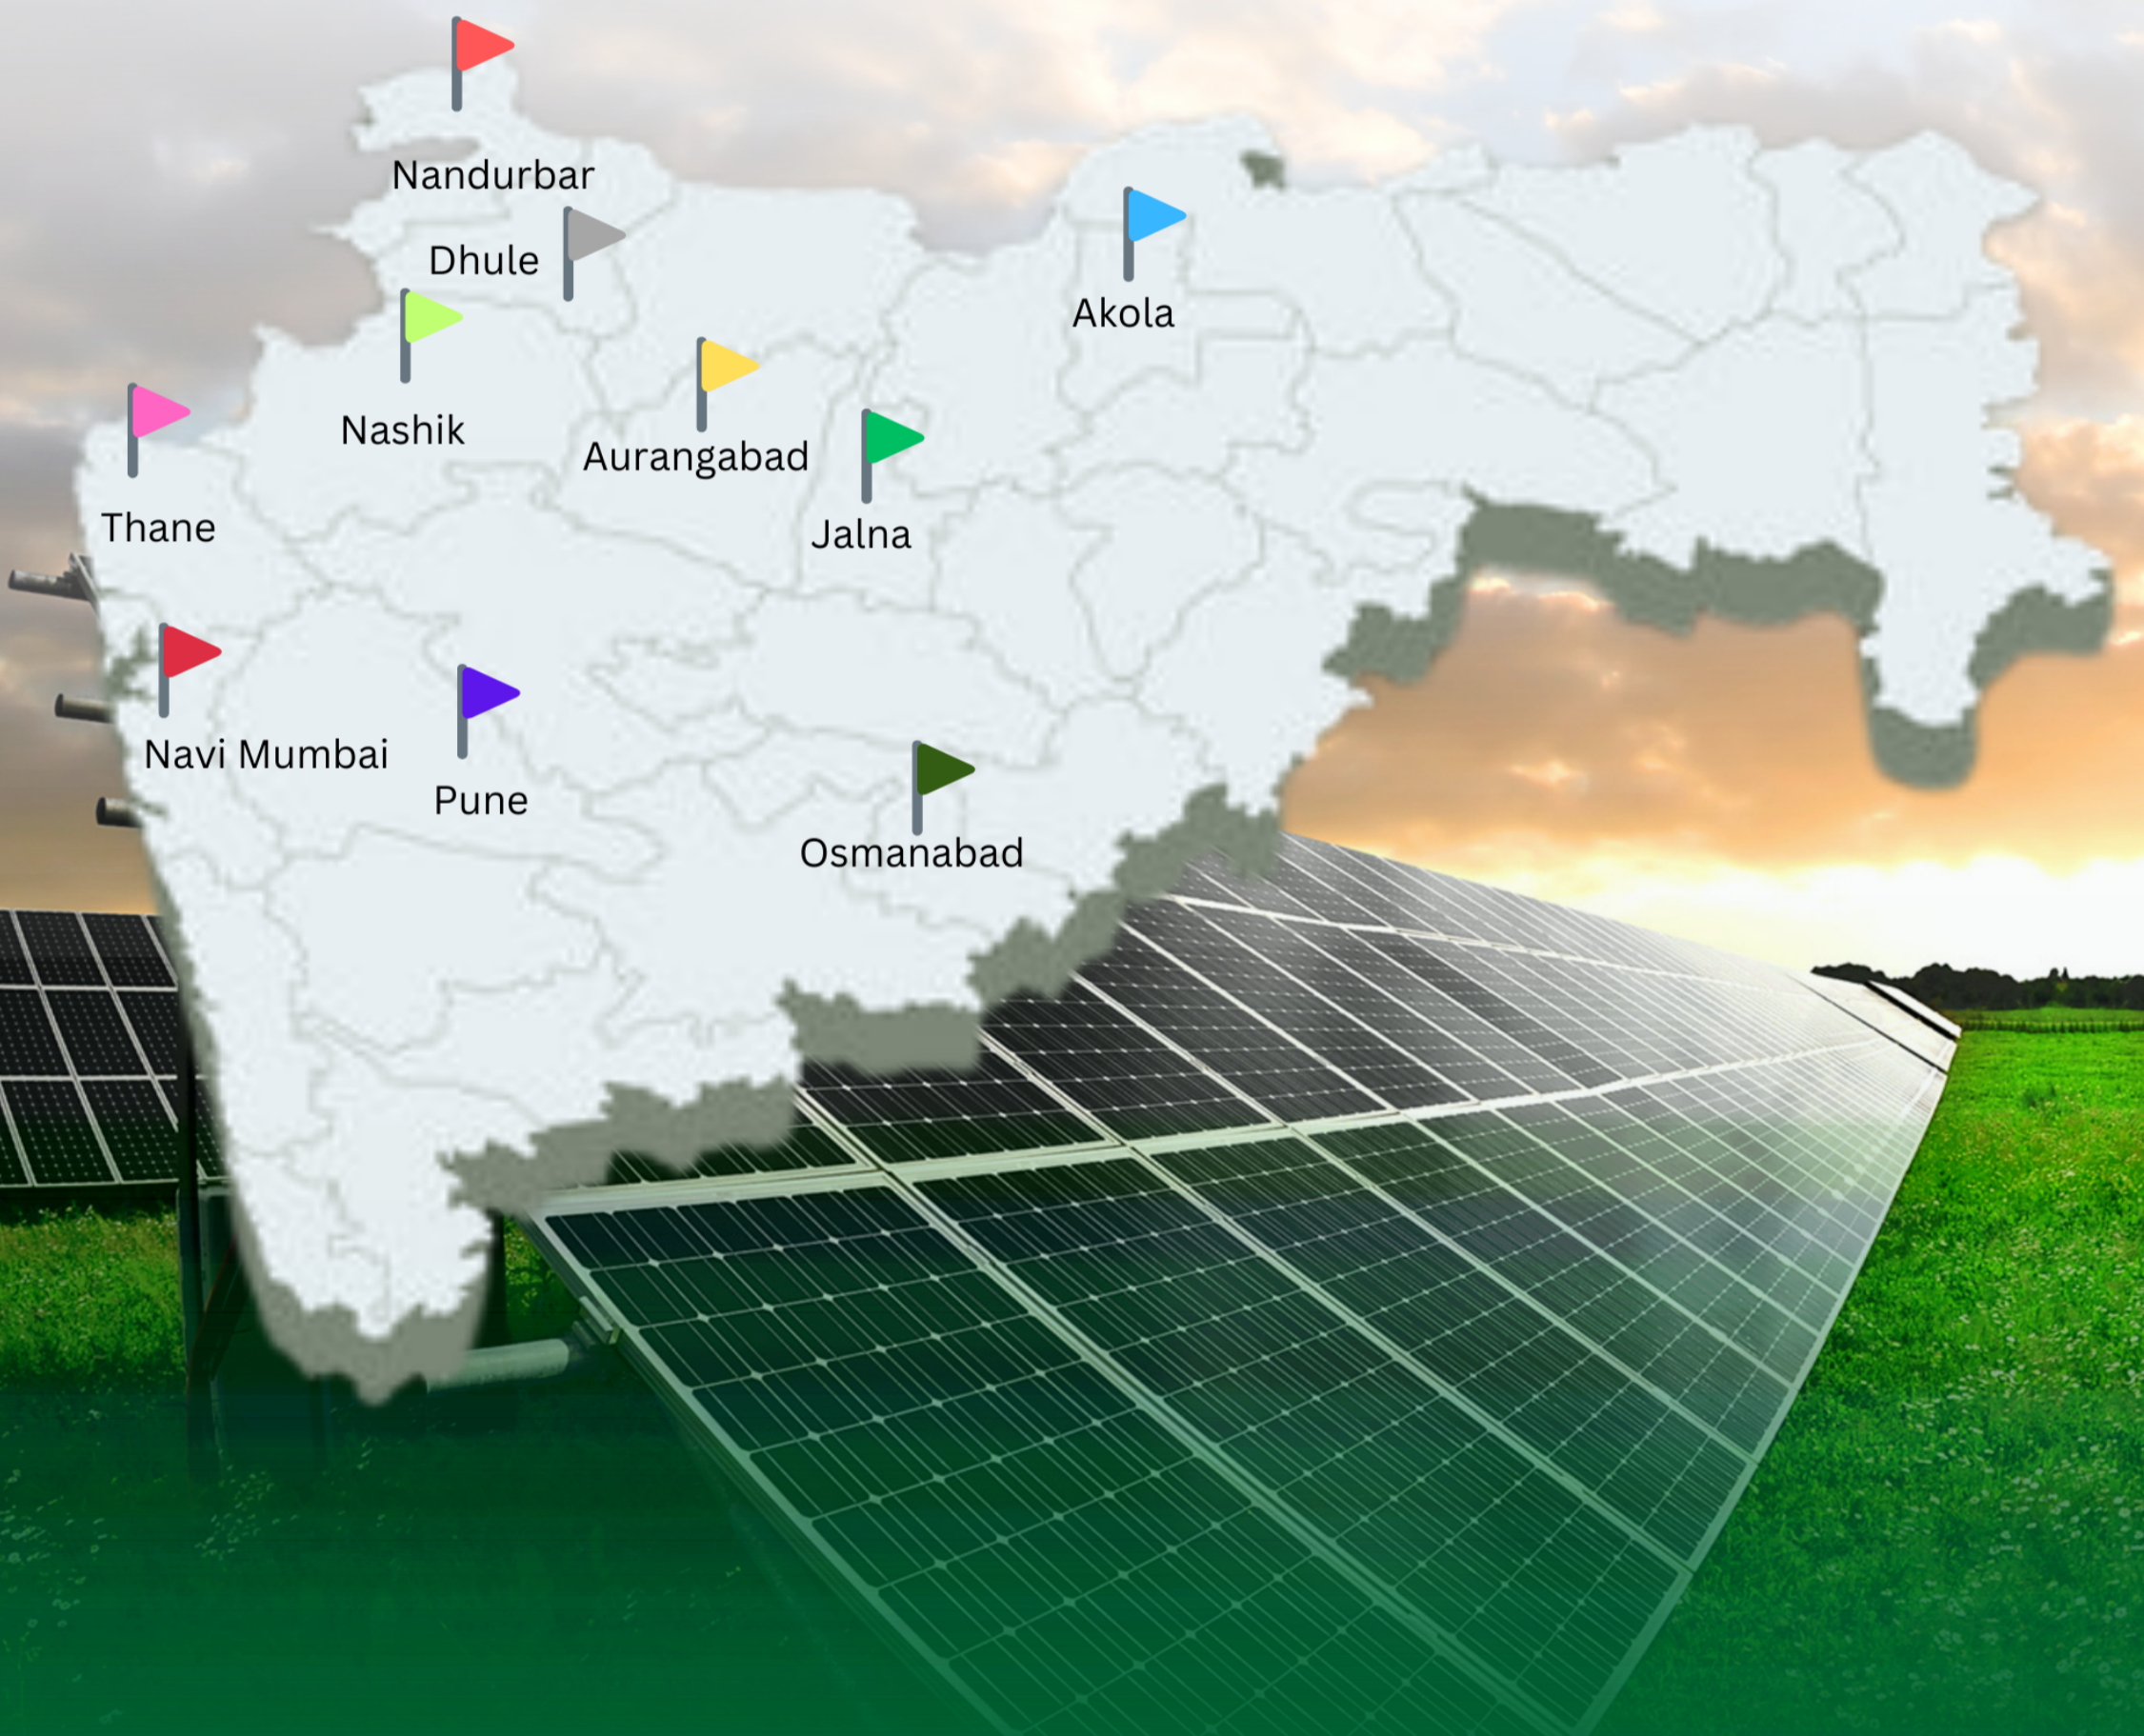

---

#### **Solar Operation & Maintenance (O&M)**

We have a dedicated Operations & Maintenance team for all our projects that manage our clients' solar assets. In addition, our qualified team monitors and services the solar assets, resulting in optimal power generation and maximum plant uptime
